International Framework Agreements are ties that form part of an emerging transnational texture of labour regulation that increasingly enmeshes and re-embeds the globalised economy.

Transnational collective bargaining (TCB) has become a hot topic of European industrial relations. As well as collective bargaining between workers and employers conducted at the sectoral or.

The General Motors (GM) case stands out for its transnational employee cooperation. During the crisis the national turn of union politics seems to have eroded solidarity and mutual trust relations. In this article the authors suggest disentangling the behaviour of labour representatives and their attitudes, identities and feelings to develop a more sophisticated perspective on labour. While European and global markets expand, and regulations have been removed to enable capital and labour to move freely within the European Union, transnational collective action of national trade unions is still an exception rather than a rule.

Abstract. In the past two decades, cross-border industrial relations have undergone a steady but most interesting evolution. The constant increase of transnational company agreements (TCAs) in a legal no mans land shows the motivation of labour and management relations to tackle the social consequences of globalization, in most cases with a view to anticipating and participating in. - Globalization and the Future of Labour Law - Edited by John D.
